

ADA ACCESSIBLE

This sign outlines the safe rider requirements of each individual ride and attraction on a Newton Shows Midway. Categories are general. Each ride/attraction has specific qualifications and rules.

Some of our patrons have disabilities or are assisting someone such as a family member or friend who may have a disability. Most types of disabilities are not readily visible. We have prepared these basic guidelines to assist you in making informed decisions about access to our guides and attractions – and for your use to plan your visit. Additional safety information is provided on signage at each attraction.

Assistive animals such as service animals, seeing-eye dogs and mobility assistance dogs are welcome. They are permitted in all pedestrian circulation areas, concessions, games, picnic areas, assembly and exhibition areas but not on amusement rides. Amusement rides have safety restraint systems that are designed for people, and the vehicles or amusement ride seats are not designed to contain an animal in a safe manner.

All games on the Midway are games of skill, which require certain physical abilities and parity to the extent possible. Multi-player race games have removable seats to accommodate wheelchairs. Should you require additional assistance to participate, please let the operators know and they will assist you. Should you have any questions or comments please advise us and we will be happy to assist you.

30" CATEGORY

Fire Engines – Riders must be at least 30" to ride. Riders must sit upright. Riders ride alone and entry into the ride requires negotiating elevated steps. Children only.

34" CATEGORY

Airshow – Riders must be at least 34" to ride. Riders must sit upright. Riders ride alone and entry into the ride requires negotiating elevated steps. Children only.

36" CATEGORY
